Article 1 – Definitions

Former Article 4 “Protocols” has been moved to Article 1(9).

USA:
- the term “non-discrimination” appears often in the text. Some type of definition would be useful, preferably one that includes both national and MFN treatment.
- an alternative approach to the problem of definition might be similar to the form used in Chapter Nine of the US-Canada Free Trade Agreement.

USSR: Argues necessity to define “transport” and “transit”.

BA 4 (31/10/91)  
Article 1 – Definitions

New texts in para (4), (5) and (8) based on suggestion of Chairman; in para (7) on basis of Australia proposal.

Romania: clarification of other notions mentioned in Basic Agreement is needed.

USA:
- the term “non-discrimination” appears often in the text. Some type of definition would be useful, preferably one that includes both national and MFN treatment.
- an alternative approach to the problem of definition might be similar to the form used in Chapter Nine of the US-Canada Free Trade Agreement.

“Energy Materials and Products” – [Ref. ANNEX II of BA 4]

Annex II

There are two approaches for defining Energy Materials and Products:

1. Alternative A is the US idea for defining energy goods as tabled following the first meeting of Working Group II.

2. Alternative B is a United Kingdom Department of Energy suggestion to use the European Communities Combined Nomenclature as a basis for developing a definition of Energy Materials and Products.

The relevant experts will need to decide the actual content of a definition based on these precedents or similar ones which other delegations may wish to offer. Given the desire for specificity the Chairman see no alternative to this type of enumerative approach.
