Explanatory Memorandum

Article 12(1) requires that Contracting Parties publish certain categories of information that relate to the production, distribution or use of Energy Materials and Products. (Source: GATT Article X).

Article 12(2) grants an exception to the preceding requirement, where the disclosure of information might impede law enforcement or otherwise be contrary to the public interest or to law, or prejudice legitimate commercial interests of particular enterprises. (Source: GATT Article X)

* Ed. note: Content of general comments in Article 5:

“Since many delegations, including Russian Federation considered in particular drafting of para (2) inadequate, the Chairman suggested two alternatives approaches to be discussed at the next meeting:
– alternative A: the current draft with added footnotes;
– alternative B: based on USA draft which would implicitly replace a number of other BA provisions.”
Article 12(3) requires contracting Parties to establish a central enquiry point where requests for relevant information may be addressed, and to inform the Charter secretariat of the details of this enquiry point.

Article 12(4) requires Contracting Parties to notify the charter secretariat of all laws and regulations relevant to the Basic protocol (and details of where such information may be obtained), plus any amendments to this information and reports on the implementation of energy policies. *

Article 27 extends the provisions of Article 12 ("Transparency") to Investors and Investments.

* Ed. note: Basic Protocol and in BP 2 contained an additional paragraph 12.4, which disappears in BP 4:
In respect of the matters the subject of this Agreement each Contracting Party shall notify the Secretariat established under Article 30 below of all laws and regulations applicable in its Territory and where enquiries about such laws and regulations should be directed, any amendments made to such laws or regulations from time to time, and information, at intervals to be determined by the Governing Council referred to in Article 28 below, on the implementation of its energy policies as defined in Article 6 above.
